

# Lovelli

**via**<sup>®</sup>  
SEATING

Lovelli's single shell design unites elegance & comfort, offering continuous support with a fluid, architectural form.

# Inspired by form, crafted for presence, designed Lovelli.

Lovelli is the embodiment of sculptural simplicity—an executive & conference chair defined by its continuous single shell design. With clean lines and a poised silhouette, it communicates sophistication while delivering lasting comfort through Via Seating's proprietary injection-molded comfort foam.

What sets Lovelli apart is its architectural detailing. The seamless wrap-around arm integrates directly into the framework, curving fluidly around the back to create both visual elegance and structural integrity. This interplay of metal and upholstery transforms Lovelli into a statement piece that elevates any boardroom, meeting space or private office.

Lovelli offers flexibility in expression. Choose from refined textile or leather upholstery to match interior palettes and pair with a signature high-profile base in polished aluminum or matte black. Open-design casters lend a distinctive, modern edge—balancing visual lightness with functional mobility. Complementary sled & guest models ensure design continuity across collaborative and executive environments.

More than seating, Lovelli is an icon of refinement: a chair that brings unity of form and function, style and strength, to the modern professional space.

# Smart Features

## Single Shell Back

Lovelli's refined single shell back design delivers a sleek silhouette with continuous support, blending clean geometry with comfort in a unified form.

## Wrap-Around Arm

The sculpted arm integrates seamlessly into the chair's framework, wrapping gracefully around the back to create a fluid, architectural detail that enhances both strength & style.

## Via Comfort Foam

Via Seating's proprietary comfort foam is injection-molded into custom engineered molds, ensuring consistent support & lasting durability. Its ergonomic design contours to the body, delivering all-day comfort that adapts seamlessly to every posture.

## Signature Base

Its high-profile base—available in polished aluminum or matte black—features distinctive open-design casters, pairing modern elegance with smooth, effortless mobility.

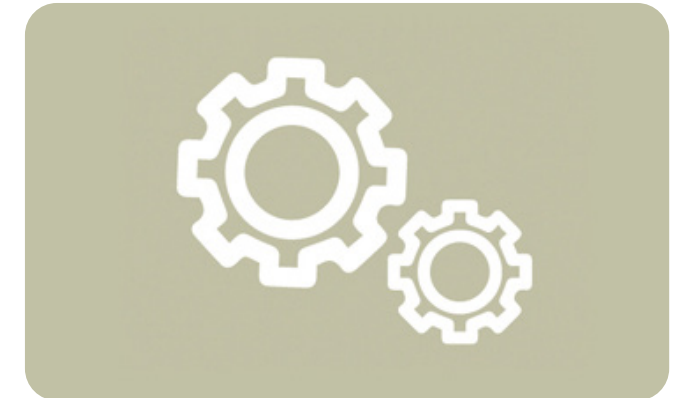

## Sustainability

### DfE Lead Design →

All Via Seating products follow the Design for the Environment (DfE) design approach. During this process, all components are screened to identify and assess the human and ecosystem health impacts of chemicals of concern. We screen all product components to the ANSI/BIFMA e3-2019 Annex B- List of Chemicals of Concern and the California Proposition 65 List.

### Vigorous Testing →

Our products are annually assessed by a 3rd party team of chemists & globally-recognized ISO 17025 accredited lab. They are rigorously tested for conformance to ANSI/BIFMA e3 standard credits 7.6.1, 7.6.2 and/or credit 7.6.3 as well as conformance to low-emitting materials. Prior to product launch, every product is continuously developed testing its functionality & durability within Via Seating's ISO 17025:2017 accredited lab.

### Environmental Impact →

All Via Seating products are BIFMA LEVEL® certified. LEVEL® is an evaluation and certification system for environmentally-preferable and socially-responsible office furniture. 3rd party certification is achieved by conformance to a multi-attribute standard created by the Business and Institutional Furniture Manufacturer's Association (BIFMA) that evaluates product impacts across categories including Materials, Energy, Human

### End of Life ↻

Via Seating provides accessible care guidelines that help maintain the quality of every product and easy-to-follow disassembly instructions when a product reaches the end of its life.
