

CEU

Clarifying Sustainability Standards through Furniture

This course compares and explains various sustainability rating tools used in the built environment including building rating systems, programs that provide information transparency, and certifications used for materials and products. LEVEL® by BIFMA's furniture certification program is overlaid throughout to understand the contribution of sustainable furniture in creating spaces with a comprehensive vision for environmental sustainability and human health and wellness.

Presented by Renisha Butcher, Client Relations Specialist

Who Should Attend

A&D professionals, LEED AP and Green Associates, facility managers, purchasing professionals, furniture producers and dealers, customers
