## Details

Thermoplastic Polyurethane (TPU) is a remarkable, robust material. It is the same material found in athletic running shoes and is also used as a rubber replacement in engineering seals for heavy duty industrial applications. Visualizing its use here in a chair, you experience exceptional support and comfort with 4-way stretch in the material. It is abrasion/scratch resistant, grease and oil stain resistant and is bleach cleanable. Sustainability wise it is 100% chlorine free, 100% PVC free and 100% recyclable. TPU uses 0 plasticizers, is odorless and is naturally soft & flexible.

## Makeup

100% Thermoplastic Polyurethane

## Cleaning & Care

WS + BC: To prevent overall soil, frequently vacuum and lightly brush the best to remove dust and grime buildup. Spot clean with mild soap and water. Infrequent use of a 1:10 bleach to water solution can be used for disinfection of the TPU.

## Qualities

100% Recyclable  
100% PVC-Free  
Bleach cleanable
