Details

The Copper Mesh Collection from Via Seating features a patented, copper-infused elastomeric mesh that embeds EPA-registered copper into 90 % PET fibers, delivering continuous biocidal action—antibacterial, antiviral, antifungal & even anti-odor—without relying on topical additives. Available in both natural and black finishes, this self-sanitizing mesh has earned industry accolades (including NeoCon and Nightingale awards) and supports high-traffic, 24/7 use while remaining bleach-cleanable, PVC- and flame-retardant-additive free, and fully recyclable.

Makeup

90% PET with 10% EPA-registered copper physically embedded into the fibers of the mesh

Cleaning & Care

WC + BC To prevent overall soil, frequently vacuum and lightly brush the best to remove dust and grime buildup. Spot clean with mild soap and water. Infrequent use of a 1:100 bleach to water solution can be used for disinfection of the mesh. The accumulate wet contact time should be limited to a maximum of two hours over the life of the chair. Regular bleach cleaning of this mesh is not recommended.

Qualities

Biocidal, Anti-viral, Anti-bacterial,
Anti-fungal, Anti-odor
100% PVC-Free
100% Recyclable
Bleach cleanable
