Details

The Performance Mesh from Via Seating is a high-quality, 4-way stretch elastomeric mesh crafted from a blend of 69% copolyester and 31% monofilament PET—designed to flex with the body across multiple seating models like the Genie®, Reset, Splash & Vista II. It's bleach-cleanable, free of antimicrobial and flame-retardant additives, and easy to maintain with mild soap, vacuums & occasional 3% bleach solutions for disinfection.

Makeup

69% CoPolyester; 31% Monofilament PET

Cleaning & Care

WS + BC: To prevent overall soil, frequently vacuum and lightly brush the best to remove dust and grime buildup. Mix mild soap and warm water together and using a lint-free cloth, damp it a little bit into the mixture. Dab gently where the stain is located. Use a different, dry, lint-free cloth to dry the area. Repeat if needed. Infrequent use of a 3:100 bleach to water solution can be used for disinfection of the mesh.

Qualities

Bleach cleanable
No antimicrobial additives
No flame retardant additives

Available On

Genie®, Reset, Splash, Vista II
