Details

The Color Collection brings together three vibrant series—Coleurí, Joí & Zee—crafted to complement each other with matching colorway options. Coleurí, designed by Dorigo Design, features six dip-colored, 100% recyclable chairs, while Joí, from S.I. Design Studio, pairs playful seat trims and foot rings with polished beech wood bases in sizes from low to bar stools. The beloved Zee line by Grey Design Studio continues to shine with its sculptural form and seven bold hues, offering upholstered pad options that align seamlessly across all three collections.
